

## PUMPING STATIONS

Colloide provide pumping stations for a broad range of applications to meet our customers' demands. We have extensive experience of pumping a variety of liquids.

### APPLICATIONS INCLUDE:

- Screened and unscreened sewage pumping
- Potable water pumping - low and high lift
- Potable water booster stations
- Dosing and metering systems
- Leachate pumping
- Surface water pumping
- High pressure washing systems
- Industrial water pumping
- Sludge pumping

As a process engineering contractor, we work with our Clients to provide the package which is the best fit for the purpose. The package will obviously include one or more pumps at the core but will include much ancillary equipment which Colloide design into the system. Variances include;

Pump types varying from submersible / dry well end suction / progressive cavity / vertical multi-stage / etc.

Pipework can be provided in stainless steel/ ductile iron/Galvanized Mild Steel/Epoxy coated Steel/UPVC/ABS/MDPE

### Colloide Engineering Systems Ltd

Cookstown Enterprise Centre, Derryloran Ind. Est, Cookstown, Co. Tyrone, N. Ireland BT80 9LU.
