

**Job Title: Mechanical fitter/technician**

**Position Type: Full Time**

Colloide are seeking to recruit a talented individual to join our construction team. Colloide pride itself on offering innovative, quality, sustainable solutions to many industries using the most advanced and up to date technologies.

The successful candidate will be responsible for assembling and testing equipment in both the workshop and on sites. This is a demanding role, requiring the ability to work with other staff on the engineering and assembly of various types of equipment and control systems.

**Mechanical fitter/technician Criteria:**

- Recognised Qualification in mechanical fitting
- Ability to read drawings
- Fast and effective problem-solving skills.
- Ability to work under pressure to tight deadlines.
- Demonstrated self-motivation, enthusiasm to work in a dynamic team environment and evidence of taking the initiative.
- Ability to work outside normal working hours at short notice.
- Willing to travel outside of NI to sites.
- Previous experience of fitting or commissioning equipment.
- Clean driving license
- Health & Safety awareness

**Desirable**

- Working knowledge of water and waste water treatment equipment
- Knowledge of controls and electrics
- Forklift licenses or similar

**Closing Date: Friday 30<sup>th</sup> June 2017**

In order to apply for this position please send a copy of your CV to: [stacey@colloide.com](mailto:stacey@colloide.com). Colloide is an Equal Opportunities Employer.
